- OBJECTIVE** Seeking an opportunity to join a company that is pushing technical boundaries and is not afraid to innovate and raise the bar.
- EDUCATION** **University of North Florida**, Jacksonville, FL
B.S. in Business Management
Concentration in International Business
- SKILLS**
- | | | |
|-----------------|--------------|------------------|
| - Next/Nest.js | - Node.js | - GraphQL |
| - SQL/NoSQL | - Typescript | - Apollo/TypeORM |
| - Redis | - React | - AWS |
| - Elasticsearch | - CSS/SASS | - Python |
- EXPERIENCE**
- Web Development Systems** *November 21 - Current*
Software Developer
- Fully-autonomous feature design, development, and testing of user interface, connected Nodejs servers, and additional data processing servers.
 - Technology coordinator for the internal business-oriented work-group, with a focus on vendor/client relations via UX design.
 - Management of AWS Dynamo, Athena, and S3 databases.
 - Helped in redesign of accounting backend processing.
 - Experience with professional communication channels between different teams of the company.
- Web Development Systems** *June 21 - November 21*
Junior Software Developer
- Minor React and Nodejs feature development.
 - Found, identified, and fixed issues in the user interface and connected servers.
 - Hands-on experience with lead engineers in development of new features.
 - Participated in the agile lifecycle, contributed biweekly to sprint planning and design meetings.
- University of North Florida** *August 20 - December 20*
Global Engagement Intern
- Created a new student handbook for subsequent interns.
 - Marketed study abroad to new students on the UNF campus.
 - Drew up spreadsheets and collected data as an aid to the advisors for research and projects.
